~1978-2024~

Vol. 5, 2024

Dear neighbors in Curley Creek Fire District,

We hope you had a wonderful Thanksgiving, and we want to wish you a Merry Christmas and a Happy New Year!

Burn season is now open until May 10th. While burn permits are not required, please be safety conscious as you burn those slash piles. Have a water source handy and be ready to rake up coals that may fall outside your burn area. Keep a close eye on the pile until it is dead out and, as always, if the fire gets away from you, don't hesitate to call 911 and ask us for a hand.

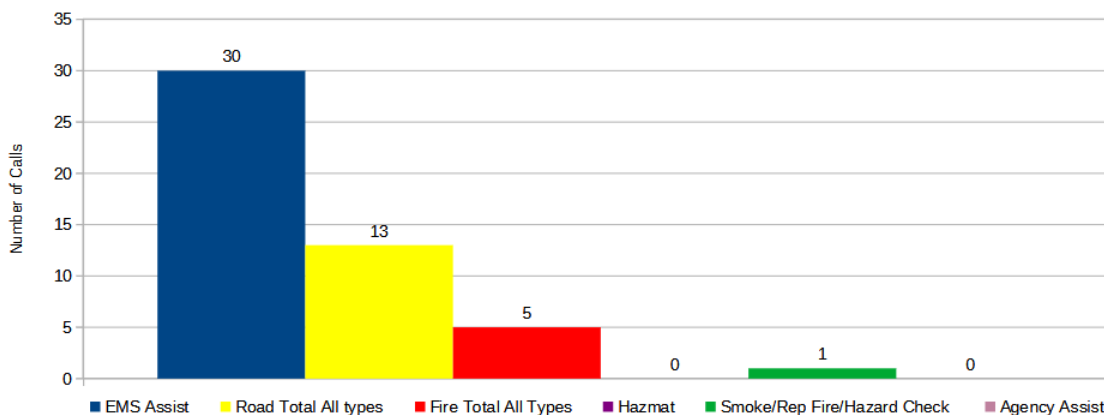

We enjoyed visiting with a number of folks at the Fair this summer. We were able to raise just over \$300 selling raffle tickets, and both the winners were actually from the Curley Creek Fire District--- all fair and square!

As we head into the new year, this is a great time to think about supporting your volunteer fire district, either monetarily or by volunteering. Donations are tax deductible. If you are interested in volunteering as a firefighter, or just want more information, you can call or email Chief Frank Wright at the contact info on the top of the page. Board meetings are also a great way to learn more about the fire department and what we do. Board meetings are the first Tuesday of the month at 6 PM. Location does sometimes vary, so email or call us and we will let you know where the next meeting is. (The community hall gets quite cold in the winter, so we usually switch to meeting at a Board member's house during the colder weather.)

Speaking of colder weather, this is the time to make sure your chimneys are clean and in good repair. A chimney fire can ruin not only your chimney, but also potentially catch the rest of the house of fire—especially areas in an attic or under the roof where you might not notice right away.

While we have not had much snow yet, winter has just started. Please make sure that your driveways are clear and wide enough for emergency vehicles to pass through between the snow banks. They also need wide areas close to the house to turn around and maneuver in case of a fire or other emergency.

2024 Call Type Summary

Here is a summery of our calls so far this year, showing what we have been up to.

We hope you have a happy holidays and a safe winter!

Practicing with the CPR dummies before our EMT, Robert, heads home for the winter. We appreciate the medical knowledge and training opportunities he brings to our department.

It's pretty cool when Grandpa Dan is a firefighter!

We really appreciate the generosity of the Selkirk Association of Realtors! Thanks to their grant funding, we have been able to purchase some good work lights and rechargeable batteries to use on emergency scenes!
